

Claims PCT Amended January 2001

- Add A1
1. A product comprising a double walled container (21), having a base wall (22) and side walls (23,24) extending upwardly from the base wall (22) toward an upper mouth opening (25) of the container, and the side walls (23,24) are in the form of a double wall comprising spaced apart inner (23) and outer (24) walls, made of a plastics material, a label (28) being located on the outer surface of the outer wall (24), the body (21) having an internal cavity (27) containing a medicament content and being bounded at least in part by the inner wall (23),
- 5
- 10 *characterised* in that the base wall (22) is a continuous base wall (22) linking the inner and outer walls (23,24) and closing the space (26) between them.
2. A product according to claim 1, characterised in that the internal cavity (27) is directly enclosed by parts of the outer wall (24) and is in contact with the outer wall (24), but the label (28) is applied to a part of the outer wall (24) the inner surface of which is not in contact with the contents.
- 15
3. A product according to claim 1 or 2 *characterised* in that the side walls (23,24) are in the form of a continuous double wall (23,24) extending the whole height of the internal cavity (27) from the base wall (22) to the mouth opening (25).
- 20
4. A product according to any preceding claim *characterised* by substantially cylindrical inner and outer walls (23,24), which are substantially concentric and coaxial.
- 25
5. A product according to any preceding claim *characterised* by lower (21) and upper (212) container parts which fit together with a seal (213A,213B) which does not allow leakage or contamination of the contents, such lower and upper container parts (21, 212) comprising respective lower (23,24) and upper (23A,24A) inner and
- 30
- outer wall parts of the container which fit together when the upper (23A,24A) and lower (23,24) container parts are fitted together.

6. A product according to any preceding claim made of plastics material and having an inner wall (23) thickness ca. 1 - 2 mm, and an outer wall thickness ca. 1 - 2.5 mm.
- 5 7. A product according to any preceding claim *characterised* in that the medicament content is a fluid which incorporates a solvent vehicle.
8. A product according to claim 7 *characterised* in that the solvent vehicle is a pharmaceutically acceptable oily vehicle.
- 10 9. A product according to claim 8 *characterised* in that the oily vehicle is a monoglyceride, phospholipid, or a galactolipid.
- 15 10. A product according to claim 9 *characterised* in that the oily vehicle is selected from glycerol mono-oleate, glycerol monopalmitate and glycerol monostearate.
- 20 11. A product according to claim 8, 9 or 10 *characterised* by containing a long-chain diglyceride.
- 25 12. A product according to any one of claims 8 to 10 containing a fatty acid triglyceride.
13. A product according to claim 12 *characterised* in that the fatty acid triglyceride is caprylic / capric triglyceride (Tricaprylin).
- 30 14. A product according to any one of the preceding claims *characterised* in that the medicament content comprises calcium mupirocin, fractionated coconut oil, and glycerol mono-oleate.
15. A product according to any preceding claim being a nasal spray container (21) provided with means (29,210) to deliver its medicament content to the nasal
